Objective

Computer Science undergraduate seeking a software development internship. Skilled in C++, Java, and JavaScript (ES6+), and building responsive web applications and PWAs using React.js with a strong foundation in DSA.

Technical Skills

- Languages: C, C++, Java, JavaScript (ES6+)
- Web Technologies: HTML5, CSS3, React.js, Bootstrap
- Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Component-Based Architecture
- Tools & Platforms: Git, GitHub, VS Code, Service Workers
- Databases: SQL, Firebase

Education

University College of Engineering, Osmania University

B.E. in Computer Science (Expected 2028) | SGPA: 9.73

Telangana State Board of Intermediate – MS Junior College | 2022-24 | Percentage: 98.4%

Secondary School (SSC) - Slate The School | 2022 | CGPA: 10.0

Projects

Budgy App | *JavaScript (ES6+), HTML5, CSS3* | Mar 2025 – May 2025 | LINK

- Developed a Progressive Web App (PWA) for expense tracking using CRUD operations.
- Enabled offline persistence using Local Storage & optimized load time to 1.5 sec with service workers.
- Designed with responsive, mobile-first design for cross-browser use.

Portfolio Website | *React.js, HTML5, CSS3, JavaScript* | July-2025 | LINK

- Created a responsive frontend web application with smooth routing and interactive navigation.
- Showcases technical skills, projects, and UI/UX implementation
- Utilized component-based architecture.

Achievements & Certifications

- Ranked in Top 2% in TS EAPCET Engineering Exam

Extracurricular & Soft Skills

- Active learner building real-world projects independently
- Skills: Problem-solving, Teamwork, Adaptability, Self-Learning
